

Potenzen Aufgabe 29

$$\frac{357l^3(m^2 - n^2)n^2}{273m^2(m + n)l^4} = \frac{17}{13} * \frac{(m - n)(m + n)n^2}{m^2(m + n)l^{4-3}} = \frac{17}{13} * \frac{(m - n)n^2}{m^2 l}$$
